

SANDSHARK™

INGROUND POOL CLEANER

DEVOURS DIRT WITH EFFICIENT, 2-WAY CLEANING

The SandShark™ Inground Pool Cleaner is the latest evolution in automatic pool cleaning technology. The SandShark cleaner cleans two ways. First, it scrubs your pool walls and floor, dislodging stubborn dirt particles with its rows of little rubber scrubbers. Next, it instantly vacuums away the debris and sends it to your pool's filtration system...where it belongs.

The SandShark cleaner's rows of flexible rubber scrubbing teeth dislodge stubborn dirt and vacuum it away

Thanks to the SandShark cleaner, hand vacuuming and dirty pools are about to become extinct.

- The SandShark cleaner features SmartTrac™ Programmed Steering. SmartTrac steering assures complete cleaning coverage from your pool floor to the waterline, maneuvering the SandShark cleaner around corners, swim-outs and steps. It's truly a "set it and forget it" pool cleaner.
- 2-way cleaning action—superior footpad design scrubs and dislodges debris from the pool surface while its powerful vacuum action whisks it away.
- Wide body design allows the SandShark cleaner to cut a broad 12" cleaning path for fast cleaning.
