

## pH Control

# Maintain Optimum Balance

Pool Controls  
**SG Series pH**  
 Control System

Pool Controls  
**SWC & XLS pH**  
 Control System

When you enhance your system with a Pool Controls pH Control System, the pH of the water is automatically controlled by doses of diluted acid (2:1) via a single peristaltic pump.

This helps maintain perfect water chemistry and optimises the effectiveness of the chlorine sanitiser.

Over time, the addition of chlorine has the effect of raising the pH of swimming pool water and if it is not brought back into the desirable range, the chlorine will become steadily less effective. If the pH rises too much, the pool water will become alkaline and possibly cloudy. Enhancing your SG Series SWC Series or XLS 900PPM chlorinator will keep your pool water looking and feeling great!

The pH Control System is simple to install and because it does not rely on a probe, no calibration is required. It can be installed on an existing unit and is "plug-and-play". Once connected, the system recognises the pH Control System and activates the pH algorithm.

# pH Control

The XLS 900PPM, SWC and SG Series chlorinators use a sophisticated inbuilt algorithm developed by Pool Controls to calculate how much acid is required to adjust the pH of the swimming pool water.

pH Control is available across the entire Pool Controls' range of salt chlorinators – from the smallest to the largest – ensuring that this important aspect of pool water chemistry can be managed in every pool

SG Series

XLS 900PPM

SWC Series

**Talk to a pool controls expert** and gain from the best of Australian designed and manufactured water management systems for your home pool.

Choose from an extensive range of award-winning, energy efficient, automated water management systems.

Plus gain experienced advice on the best system to achieve perfect water balance in your **salt water**, **fresh water** or **mineral water** pool.

### Product Features:

**pH** Optimum pH Control

**Made in Australia**

**3** 3 Year Warranty

**Simple to install**
