EXCEPTIONAL POOL PURIFICATION

ozoneswim.com.au

Discover your *Exceptional Pool Experience*

ozoneSwim®

There's no awful smelly chlorine residue and my kids never get sore eyes, no matter how long they swim.

Georgia Harding, Well Nourished

- Are you tired of red eyes and itchy skin?
- Do you want to reduce your Chlorine Exposure?
- Do you want Healthy, Crystal Clear & Odour-Free Water?
- Do you want to save Time and Money on Pool Maintenance?
- Does your family suffer from Allergies, Asthma or Eczema?

How does *Ozone* purification work?

Ozone generated from the Ozone Swim units do the majority of sanitising work in your pool, **reducing chlorine demand by up to 80%** while leaving you with **clear, clean and odour free pool water**.

Ozone effectively neutralises any organic contaminant instantly and reverts back to oxygen by the time your water returns to the pool body. Ozone Swim leaves you with **noticeably softer** water that is also **safe and hygienic**.

1. GENERATION

Oxygen converted to pure Ozone

2. PURIFICATION

Ozone neutralises harmful contaminants

3. REVERTS TO NATURE

Ozone converts back to natural pure Oxygen, for a softer cleaner pool
